John Dyck Enterprises

Dear John,

No, I am not breaking up with you. Now that spring is here, and I can finally see my lawn again, I was reminded of the wonderful work you did last fall. I hired you to do the complete landscaping of our yard. Our home was newly constructed, so you started from scratch. You did the planning, quoting, grading, soil, sod, rock, shrubs etc, etc. The job went almost exactly as planned. You handled the normal challenges associated with this kind of project with expert enthusiasm.

I think the most remarkable thing was the way your team worked together. They were hard working, and pleasant. Also, many neighbors were stunned by the professionalism of your crew. They could not believe how fast your team worked, and how organized and clean they left the job site each night.

We are pleased with the final outcome, and relish in our neighbors comments on how good it all looks.

Regards,

A handwritten signature in purple ink, which appears to read "Marc Daudet". The signature is fluid and cursive.
